## Aspire

It was three decades ago when a beautiful idea called Tunga, began life. Since then, it's growing evermore beautiful, touching everyone's heart with warmth and affection.

We embarked on this journey with a little more than the belief in our abilities. We decided to always strive to elicit the innate character of Tunga and made honest attempts to carve a niche in the hospitality industry. The journey was really hard, but it was really wonderful. Today, our name Tunga has become synonymous to hospitality and elegance. We are known not just as a business house, but a conglomerate that has spirit, beauty and character.

In past years, a number of accolades have graced us. But certainly, the one that meant us the most has been your priceless smile. Something that drives us to do a little more every passing day. And as we step into the new era, where everyone is racing against time, we offer to our patrons, an antidote to the chaotic surrounding world.

Come unwind at The Regenza - by Tunga. Experience exquisiteness.
